PARTH DHAWAN

Aspiring Business Analyst

Panchkula, Haryana | +91 7082335959 | parthdhawan921@gmail.com | LinkedIn | GitHub | Portfolio

Profile Summary

Aspiring Business Analyst with hands-on project experience in **Excel, SQL and Power BI**, covering KPI tracking, financial modeling, scenario and sensitivity analysis, cost-benefit analysis and dashboard reporting on e-commerce, quick-commerce and retail data. Skilled at translating business questions into data requirements, sizing revenue and margin levers, and presenting data-driven recommendations to stakeholders through clear reports and dashboards.

Projects

Dark-Store Break-Even Model (Swiggy Instamart) | GitHub | Case Study | *Excel* **October 2026**

- Built a **financial model** in Excel from Swiggy Q1 FY27 disclosures (**114.5M orders, AOV Rs 691, 1,171 dark stores**).
- Found break-even at **~1,133 orders/store/day** vs ~1,075 today using sensitivity tables, scenario analysis and a tornado chart.
- Sized a **10% AOV lift** at **~Rs 85 crore/quarter** and showed a discount war cuts margin to -1.3% even as orders rise.

E-Commerce Funnel, Cart Leakage & Retention Analysis | GitHub | Case Study | *SQL* | *Databricks* **October 2026**

- Quantified **$3.93M/month** of unbought cart value from **20.7M e-commerce events** using SQL on Databricks (76.5% abandonment).
- Ran a **Pareto analysis** showing 23 of 465 categories hold half the leak, giving the business a focused shortlist to act on.
- Built a **cost-benefit case** for a cart-reminder nudge worth **~$91K/month** and proposed a holdout test to validate it.

AI-Assisted Retail Analytics Pipeline (LinkedIn Learning) | GitHub | Case Study | View | *Python* | *Power BI* **October 2026**

- Automated a monthly sales report into a **one-command pipeline** that builds a dashboard, deck and Power BI model in under 30 sec.
- Designed a **41-check data quality gate**; removed 3,997 duplicate lines and flagged 2 markets (13% of revenue) missing from docs.
- Quantified **EUR 274K to 442K** of December sales lost to 3 stock-outs and created a reorder list for the purchasing team.

Bike-Sharing Demand Analysis & Power BI Dashboard | GitHub | Case Study | *SQL* | *MySQL* | *Power BI* **August 2026**

- Built a **3-page Power BI dashboard** tracking trips, riders, fare revenue and month-on-month growth across 5 cities.
- Identified **32 stations** gaining or losing 40+ bikes for a daily rebalancing route; 60.3% of fare revenue comes from subscriptions.
- Validated the data with **7 SQL checks**, exposing 3,461 impossible trips, and reported demand per day instead of misleading totals.

Technical Skills

Business Analysis: KPI Tracking, Root Cause Analysis, Cost-Benefit Analysis, Financial Modeling, Unit Economics, Scenario & Sensitivity Analysis, Process Improvement

Excel & Reporting: Advanced Excel (Pivot Tables, XLOOKUP, Data Tables, What-If Analysis, Charts), Power BI, DAX, Power Query, Dashboards, Automated Reporting

Database Management & Querying: SQL, MySQL, Databricks, Joins, CTEs, Window Functions, ETL, Data Cleaning, Data Validation, Data Modeling

Data Analysis & Programming: Python (Pandas, NumPy, Matplotlib), Exploratory Data Analysis, Statistical Analysis, A/B Testing

Soft Skills & Tools: Stakeholder Communication, Presentations (PowerPoint), Data Storytelling, Analytical Thinking, Problem-Solving, Attention to Detail, AI-Assisted Analysis (Claude Code)

Education

Chitkara University (CGPA: 7.21/10) **2021 - 2025**

Bachelor of Pharmacy *Himachal Pradesh*

Trainings and Certificates

Coding Ninjas

Advanced Certification in Data Analytics with Generative AI

- Introduction to Analytics & Excel | Data Visualization with Power BI | SQL for Data Analysis

LinkedIn Learning

- Claude Code for Data Analysis: Build Repeatable, Reliable Workflows | Databricks for Data Analysts

Anthropic Academy
